

Gestational Carrier Letter of Engagement with Prime Genetics, LLC

By signing this engagement agreement _____, as Gestational Carrier and _____, her husband/partner, are asking Prime Genetics, LLC to locate and match her with Intended Parents needing to build their family through surrogacy. Any expenses incurred by Prime Genetics, LLC for interviews, screening, background checks and meetings on behalf of the Gestational Carrier and/or her husband/partner shall be deferred for payment by Intended Parents. Said expenses will be disclosed in any surrogacy agreement reached with Intended Parents, once the Gestational Carrier and her husband/partner agree to work exclusively with Prime Genetics, LLC to locate said Intended Parents. ***If Gestational Carrier and her husband/partner locate Intended Parents through a source other than Prime Genetics, LLC, or decide not to pursue this option after funds have been spent on screening, background checks and meetings, Gestational Carrier and her husband/partner shall be billed for fees and costs incurred.***

The Gestational Carrier and her husband/partner agree that they will not enter into a gestational agreement with any Intended Parent that they have been made aware of through Prime Genetics, without going through Prime Genetics to establish the surrogacy arrangement.

Further, by signing this engagement letter the Gestational Carrier and her husband/partner permit Prime Genetics, LLC and its employees to distribute copies of Gestational Carrier's information to prospective Intended Parents who have signed a retainer agreement with Prime Genetics, LLC and their attorney. Gestational Carrier and her husband/partner are willing to accept information from Prime Genetics regarding Intended Parents and will keep said information confidential throughout the surrogacy process and beyond according to the terms of this Engagement letter and any contract signed with said Intended Parents.

I/We declare that I/we understand the above-captioned statement and by signing below agree to the above.
